

DisclosedRx

The Fiduciary and Fully Disclosed PBM®

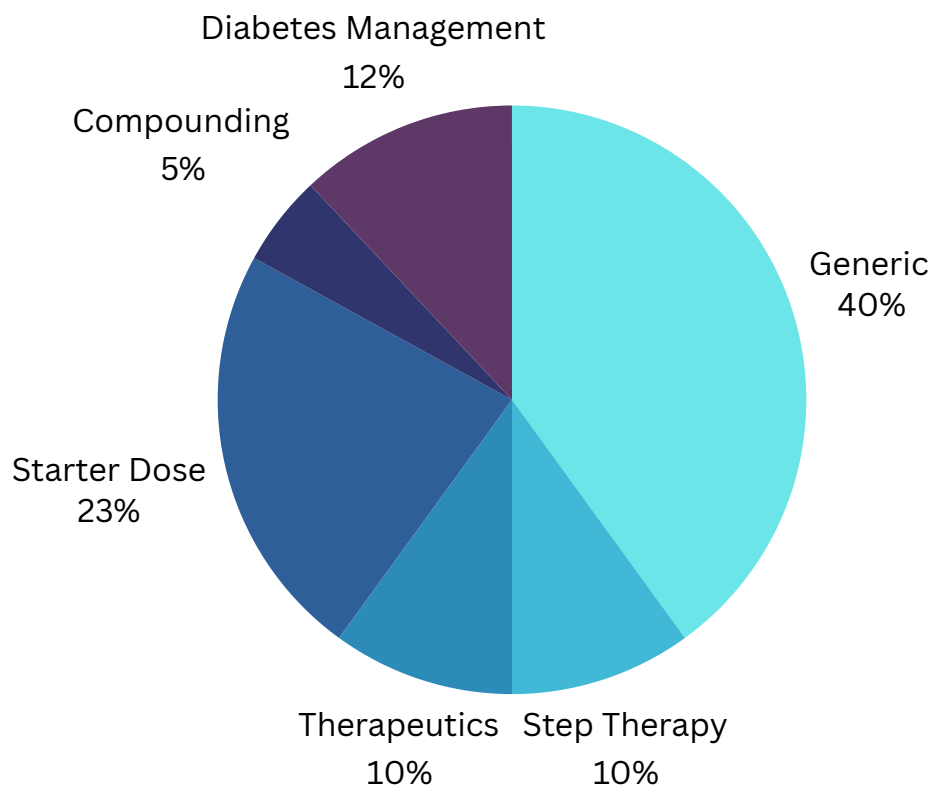

The PBM that sits on the patient side of the table

Cost Containment Programs

- Enhanced Specialty Cost Control: leveraging buying power to reduce costs to the plan and patients
- Agile Channel Management: The right medication, the right cost, the right time
- Plan Defense: Stops overspending on wasteful drugs

Prescription Navigators: staff available to help your members find the medications they need. Their purpose is to coordinate remarkable care with one thing in mind - giving patients the best experience possible

Clinical Management Programs

Connectivity: any mobile device is your access point. No need to download a new app.

Open Formulary: no specialty carve-outs or exclusions

MEC Plan Basic

Per the ACA Federal regulations, a MEC plan must provide minimal essential coverage for prescription drugs as well. These are related to preventive treatments and include various injections, pills, patches and chewable drugs. With over **two thousand scripts** available, this is a broad list of preventative drug applications.

MEC Co-Pay Plan

The Co-Pay MEC plan, in addition to the Basic plan, includes many traditional drugs and prescription applications. With over **seven hundred other scripts**, the Co-pay plan utilizes a traditional formulary, that includes generic, brand name and specialty drugs.

About DisclosedRx

Honest: one of a handful of PBMs who act as your plan's fiduciary

- All costs and prices fully disclosed
- 100% rebate pass-through
- 100% pricing pass-through
- Open Plan Formulary to protect the plan and the patient: no games or incentives to fill a script with a higher priced alternative that gives the PBM more rebate money

Available: **DisclosedRx** provides 24x7 white glove service to your employees and their families

Innovative: the world of prescription medication is constantly changing and applications with the FDA for new specialty drugs are rapidly increasing. **DisclosedRx** is constantly watching and looking for ways to save money for the plan and the patients.
